

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS AIR COMBAT COMMAND
LANGLEY AIR FORCE BASE, VIRGINIA

11 May 2000

MEMORANDUM FOR SEE DISTRIBUTION

FROM: 162 Dodd Blvd, Suite 100
Langley AFB VA 23665-1995

SUBJECT: Tri-Service Infrastructure Management Program Office (TIMPO) Infrastructure
Survey Information

I need your help to ensure that each Bioenvironmental Engineering shop in your MAJCOM receives an infrastructure evaluation to identify the computer systems upgrades necessary to meet CHCSII and DOHRS connectivity requirements. This does not imply that the USAF has accepted DORHS-IH for deployment. Based on lessons learned following Army facility surveys, the IH shops were not properly identified and missed evaluation. This list and subsequent evaluation will identify buildings/sites requiring support under the Medical Healthcare Systems/Defense Information Systems Agency's Service Level Agreement.

The TIMPO POC indicates a negligible impact to BEF operations beyond showing the contractors the building layout and systems location. Additionally, TIMPO has indicated that they will coordinate the survey date, providing both the MTF and the base SC organization advanced notice.

The surveys are being accomplished by Tricare Region. I'll send you schedule information as soon as I receive it.

TIMPO needs the following base information to coordinate a facility evaluation:

Base	BEE Shop POC	BEE ph#	MTF Systems Ph #	BEE Shop Bldg #
------	--------------	---------	---------------------	--------------------

Please provide the following information to my office by 16 May 00. Also include any MAJCOM specific instructions you would wish conveyed to TIMPO. My POC is Lt Col Alan Dooley, DSN 574-1269, alan.dooley@langley.af.mil.

MARK A. HAMILTON, Col, USAF, BSC
Command Bioenvironmental Engineer
Office of the Command Engineer
